**Confluence: a coming, or flowing together, meeting or gathering at one point.**

*Merriam-Webster*

*Every drawing begins with a line. Each artists lines reflect their unique vision, individual technique and independent approach to drawing.*

*Thirty five artist members of The Drawing Collective from thirteen countries have gathered with their work in this show Confluence of Lines.*

*Each artists works are like rivers flowing separately with their unique vision to meet at a point of confluence creating a rich fertile land of growth and possibility.*

*Munira Naqui*

**Confluence : jonction de cours d'eau ou de courants, point de rencontre ou de rassemblement**  
(Traduit de la définition du dictionnaire Merriam-Webster)

Tout dessin commence par une ligne. Chaque ligne de l'artiste reflète une vision unique, une technique propre et une approche indépendante au dessin.

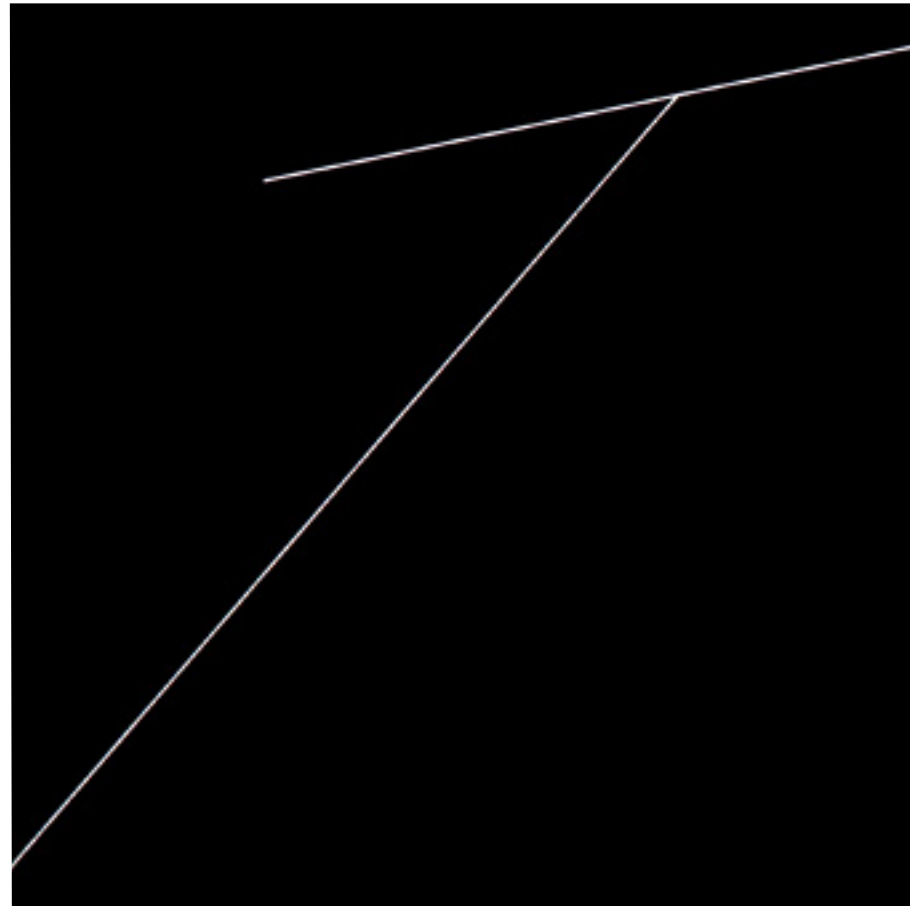

Trente-cinq artistes de treize pays, membres du groupe The Drawing Collective, se sont rejoints au travers de leurs œuvres dans l'exposition *Confluence of Lines*.

Les œuvres de chacun des artistes sont comme des fleuves qui coulent séparément avec leur perspective particulière pour se rencontrer en un point de confluence qui crée une terre riche et fertile de possibilités bonnes à cultiver.
